Principal

To Whom It May Concern:

I have worked with David Consalvi for the past five years. I have worked with him in several aspects including being a colleague, co-advisor, and as an administrator. David has been a classroom teacher, class advisor, and yearbook advisor.

David has been a tremendous addition to our staff. He is very knowledgeable about his science and technology, innovative in his teaching approach, and available to help students when the need arises. He goes above and beyond to help students reach their goals. David works very well with students with special needs making accommodations as necessary.

David has been involved in several co-curricular programs and was instrumental in helping to develop the local recycling program for which he was an advisor. David is gifted in the use of technology and has done an exceptional job advising the yearbook. David also directed the creation of our school promotional video and marketing materials.

David also is a leader of technology at Shead. He provides technology trainings during our professional development time. He also helps staff members with technology questions and problems readily. He is the leader teacher for our MLTI Laptop Project.

I am highly recommending David Consalvi. He is truly a professional and team player. If you have any questions please feel free to contact me at the above location.

Sincerely,

Roberta Mitchell
Assistant Principal
